FAQs About Artwork

1) We have too many drawings to fit on backing sheet? - If you have slightly too many drawings you can add an extra row to the bottom edge of the image area outside the blue template line. Or you can trim the extra white from the smaller drawings allowing them to be placed closer together.

2) Can you add the school name and our logo? - Yes we can and there's no charge for doing this. Email the logo to **sales@countrysideart.co.uk** and hand-write your school name on the artwork kit backing sheet where you want it added. Also inform us in 'Special Instructions' on the Order Form.

3) Some of the children have used biro and pencil what should I do? - We can usually manage to work with these drawings but they take a lot longer to prepare for print. So there may be a slightly delay with your order. Alternatively, if you have time, ideally ask the children to redraw their pictures.

4) Our very young children can only produce hand prints and they are too large to fit on the backing sheet? If you have access to a photocopier you can reduce the hand prints to the size in the instructions. Or trim around the fingers and over-lay them.

5) We don't have any black hand paint? Any really dark colour such as navy, dark green, purple etc will work but don't use pale colours as our scanner will struggle to pick up the details.

How To Use The Artwork Kit

The kit involves giving each child a small piece of paper to draw on (cut from one of the smaller A3 grid sheets) and then pasting the resulting drawings back onto the larger A1 grid backing sheet. ***VERY IMPORTANT - FULL COLOUR DESIGNS MUST BE PASTED ONTO THE WHITE SIDE ONLY OF THE A1 BACKING SHEET***

Instructions

1. Each child completes their drawing in felt pen on the small piece of paper cut from the A3 blue grid sheets. ***(Important - please ask the children to draw on the plain side of the paper pencil is used under the felt pen it must be rubbed out as it can make the pictures look indistinct when printed).***
2. The template for tea towels, aprons and bags are marked out on both sides of the large A1 grid sheet. For all other products mark out the artwork size of your chosen product (sizes are all listed on this sheet)
3. The finished drawings are then pasted back onto the large A1 grid sheet using a strong glue (we really recommend Pritt Stick). You can paste the drawings right to the edge of the specified artwork size.
4. If you have slightly too many drawings you can add an extra row to the bottom edge of the image area outside the blue template line. Or you can trim the extra white from the smaller drawings allowing them to be placed closer together.
5. Fold the sheet back up carefully along the pre-existing fold lines. Mail the finished pasted-up large sheet/s back to Countryside Art with the 'Order Form' in the same box.
